

BLACKALL MARKET REPORT

30TH NOVEMBER 2023

Blackall Combined Agents yarded a total number of 3807 head cattle for the last Black Weaner & Store Sale. A large portion of the cattle yarded were from local surrounding towns but mostly from the Northwest of the state with mix quality cattle. While prices lifted significantly across the board compared to the last sale, Bos Indicus content and quality did impact averages on young cattle, and buyers were still chasing the heavier weaned pens. Good quality runs of heavy feeder steers sold to solid demand from southern Queensland and restockers were active on quality medium weight heifers. Local light weight restocker steers sold to 382.2c/kg with an average price of 342.7c/kg, steers 280 to 350kg made to 358.2c averaging 333.5c/kg. The return of southern Queensland restockers helped improve prices for flat back heifers with the top pen of British cross heifers 280 to 350kg selling at 314.2/kg to an average of 267.7c/kg and feeders paid up to 310.2c/kg, whilst medium weight heifers came to an average 250.7c/kg. The medium weight cows made to 202.2c averaging 180.01c/kg and good heavy cows made to 215.0c/kg. Heavy bulls sold to 238.2c/kg.
